

Memorandum

*Flex your power!
Be energy efficient!*

To: DEPUTY DISTRICT DIRECTORS, Construction
RESIDENT ENGINEERS (See attached list)

Date: August 9, 2005

File: Division of Construction
CPD 05-7

From: ROBERT PIEPLOW 
Chief
DIVISION OF CONSTRUCTION

Subject: Time Extension on Existing Variance for Aerially Deposited Lead

The Department of Toxic Substances Control (DTSC) issued a letter on July 21, 2005 to all districts currently holding an aerially deposited lead (ADL) variance and planning to renew it. The letter states that the existing variance for ADL is extended until June 30, 2006. The Department of Transportation is continuing to work with DTSC in establishing guidelines for a new variance.

The Division of Construction is recommending that districts continue to monitor their projects and follow guidelines established in CPD 05-5 to complete ongoing contract work before the expiration of the variance on June 30, 2006.

The Division of Environmental Analysis' web site has additional information regarding the DTSC variance at:

<http://www.dot.ca.gov/hq/env/haz/index.htm>.

If you should have any questions or comments regarding this directive, please contact Michael Kissel, Chief, Office of Contract Administration at (916) 654-2467.
